Sorry I didn't get it posted by Friday. I just had too many things to do for Geek Day [which was highly successful, btw].

Here's the word document of Draft 3. I caught a typo and added something minor [I highlighted it as a note in Standard 4], so it's best for you to use this version. I'm cc'ing Della so she has the same doc.

You two did incredible work....it's really starting to look quite solid. I'm impressed with both of you [as always]. I have a few notes, but will actually send them as comments by the 3/23 deadline.

thanks,
kc

Thanks so much, Kathleen. The draft is in the shape it is because of Della's efforts--she did an amazing job!

Thank you for your feedback, which we always appreciate.

See you at the meeting with Manny et al at 1:00 today.
